Income limits and other guidelines apply. Funds are limited. Contact us today to find out more.

What is a Whole-House Retrofit (or Upgrade)? *The sum is greater than its parts*

Increasing your home's energy efficiency isn't just switching out light bulbs or buying new appliances. It's approaching your home as a complete system. Heating, air conditioning, insulation, water and other systems can all work together to help you live comfortably while lowering your utility bills.

So, if you are ready to do more than just adjust your thermostat to make your home more energy efficient, call us and schedule your professional home energy assessment.

Thousands of dollars in rebates and incentives are available. Plus, CHF offers Grants and a low, fixed interest rate loan to finance qualifying home improvements. Now is the right time to plan your home energy upgrade.

100% Financial Assistance is Available*

Get a Grant from CHF, up to \$1,250 per home AND finance the remaining cost for qualifying upgrades with a 0-3% fixed-interest rate loan from CHF. No down payment or appraisal of the home is required, and there is no minimum credit score to qualify*.

Plus, several thousands of dollars in additional rebates may be available from your utility provider that your Participating Contractor can help you apply for.

Participating Contractors

Contractors participating in this program are specially trained to assess your home and let you know which improvements will make the biggest impact to lower energy consumption and save you money. Call us today and we will refer you to one in your area.
